

Family Health Event/Night 2017

Give Every Child A Chance hosted three Family Health Event/Night at three of the After School Advantage Program (ASAP) sites. First event was held at Shasta Elementary School on March 30th, second event was held at Banta Elementary School on April 13th, and last event was held at George Komure Elementary School on May 4th. This event would not have been possible without the help of our guests: Chef Bryan from MUSD and Second Harvest Food Bank. We would like to also thank our GECAC staff and volunteers for helping us during the event.

Every family and/or student who was present at the Family Health Event went home with a bag of fresh fruits and food such as cereal and pasta.

We would like to thank Kaiser Permanente and Sutter Tracy Community Hospital for their ongoing support. Without them, these events would not be possible.
